Analgesic strategies for day-case knee surgery
Behavioral training and mirroring techniques to prepare elective anesthesia in severe autistic spectrum disorder patients: An illustrative case and review
Butyrylcholinesterase deficiency and its clinical importance in anaesthesia: a systematic review
Comparison of intravenous lidocaine and dexmedetomidine infusion for prevention of postoperative catheter-related bladder discomfort: a randomized controlled trial
Comparison of the efficacy of erector spinae plane block performed with different concentrations of bupivacaine on postoperative analgesia after mastectomy surgery: randomized, prospective, double blinded trial
EEG profiles during general anesthesia in children: A comparative study between sevoflurane and propofol
Erector Spinae Plane Block vs Quadratus Lumborum Block for pediatric lower abdominal surgery: A double blinded, prospective, and randomized trial
High-dose versus low-dose opioid anesthesia in adult cardiac surgery: A meta-analysis
High-flow nasal oxygen vs. standard flow-rate facemask pre-oxygenation in pregnant patients: a randomised physiological study
Increasing compliance of safe medication administration in pediatric anesthesia by use of a standardized checklist
Mechanisms of spinal cord stimulation for the treatment of pain: Still in the dark after 50 years
Perioperative care of cannabis users: A comprehensive review of pharmacological and anesthetic considerations
Single injection ultrasound-guided rectus sheath blocks for children: Distribution of injected anesthetic
Ultrasound-guided erector spinae plane block versus oblique subcostal transversus abdominis plane block for postoperative analgesia of adult patients undergoing laparoscopic cholecystectomy: Randomized, controlled trial
Uses and mechanisms of apnoeic oxygenation: a narrative review
What do you expect? Catastrophizing mediates associations between expectancies and pain-facilitatory processes

New Cochrane Reviews
Epidural analgesia for adults undergoing cardiac surgery with or without cardiopulmonary bypass
The use of ultrasound guidance for perioperative neuraxial and peripheral nerve blocks in children
