HSC Radiology
Current Awareness Bulletin
June 2020

To be added to the recipient list for this bulletin, please email Richard Fallis, Specialist Librarian for Medicine, Dentistry & Healthcare Sciences: richard.fallis@healthcarelibrary.qub.ac.uk

You must be a member of the Healthcare Library to read the articles listed in this bulletin. To read an article, click its title, log in with your Healthcare Library number and password (if prompted), then click any PDF or full text links that appear (the full text of some articles will open directly after you log in).

Also available as a Read by QxMD collection:
https://read.qxmd.com/collection/18731

Acute biliary interventions (radiological review)

Acute mesenteric ischaemia: imaging and intervention

Biology-Guided Radiation Therapy: A Look at the Not-So-Distant Future of Cancer Treatment

Characteristics of musculoskeletal radiology job postings to guide radiology trainees

Computed Tomography Angiography findings can predict massive bleeding in head and neck tumours

COVID-19 pneumonia: A review of typical CT findings and differential diagnosis

CT protocols and radiation doses for hematuria and urinary stones: Comparing practices in 20 countries

Dactylitis: A pictorial review of key symptoms

Diagnosis of the Coronavirus disease (COVID-19): rRT-PCR or CT?

The diagnostic efficacy of gadoxetic acid-enhanced MRI for liver fibrosis staging

Diagnostic performance of CT for differentiating peritoneal tuberculosis from peritoneal carcinomatosis

Enhancing communication in radiology using a hybrid computer-human based system

Hysterosalpingo-contrast-sonography vs. magnetic resonance-hysterosalpingography for diagnosing fallopian tubal patency: a systematic review

Imaging COVID-19

Imaging the facial nerve: A contemporary review of anatomy and pathology

Improving the diagnosis of common parotid tumors via the combination of CT image biomarkers and clinical parameters

Mediastinal hemangiomas: Spectrum of CT and MRI findings

MRI safety considerations during pregnancy

Not the Usual Kid Stuff: PET/MRI at CHOP adds value and helps reduce radiation dose in young patients

Novel foetal echocardiographic image processing software (5D Heart) improves the display of key diagnostic elements in foetal echocardiography

A picture of sadness: spotting depression with imaging

Predictors for 30-day mortality and complications following radiologically inserted gastrostomies: a single centre, large cohort review

The voice of the radiologist: Enabling patients to speak directly to radiologists

Which patients are prone to undergo disproportionate recurrent CT imaging and should we worry?
